Independently Published, United States, 2018. Paperback. Condition: New. Language: English. Brand new Book. This book is designed towards mastering the CogAT from which many school districts identify gifted children for admissions into their gifted and talented programs. The book contains 9 lessons, one for each subtest. Each lesson consists of three main parts: Description of the question type, exercise questions, and answers and explanations. In addition, the book has 2 full-length practice tests with detailed explanations. It is recommended that you take the first practice test as a diagnostic test to understand your current level of expertise and in which area you need improvement. After completing the 9 lessons, use the second practice test to help improve your problem solving skills. There is no greater substitute than to study and practice.
